Promoting the Wise Use of Land • Helping to Build Great Communities

WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that environmental considerations become a part of the decision making process. The following is a summary of the most recent determinations made by the County's Environmental Coordinator. The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County.

You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be in writing and should be delivered to: **Ellen Carroll, Environmental Coordinator, Department of Planning and Building, 976 Osos Street, Room 300, San Luis Obispo, Ca 93408-2040**. For more information about the environmental review process, please write to the address above, call the Environmental Division of the Department of Planning and Building at (805) 781-5600, or review information on our website which is www.sloplanning.org.

Proposed Negative Declarations

A Negative Declaration is issued for projects that would not result in significant effects on the environment. In many cases, the project applicant has added mitigation measures to the project to reduce environmental impacts in order to qualify for a Negative Declaration. If you disagree with the issuance of a proposed Negative Declaration, you may provide comments or file a Request for Review (appeal) of the Negative Declaration. Requests for Review must be filed within two weeks of the date that the proposed Negative Declaration is posted and must address only environmental issues. There is a fee for the request. If you would like more information about this process, please contact the Environmental Coordinator.

For Week of March 27, 2008

Cayucos Area

Cayucos Creek Road Diversion Pipe. Request by the Department of Public Works to implement drainage improvements extending under Cayucos Creek Road. Construction activities for the proposed project would consist of the following components: 1) installation of a modified storm drain inlet at the downstream end of the existing 48-inch reinforced concrete pipe (RCP); 2) open trench installation of approximately 480 feet of 24-inch HDPE pipe; 3) installation of two manholes; and 4) construction of a buried concrete-headwall at Cayucos Creek. Temporary construction impacts are expected to result in a total disturbance of approximately 6,155 square feet (0.14 acre) area. This includes 1,375 square feet (0.03 acre) of riparian vegetation (CDFG jurisdiction) and temporary impacts associated with trenching activities outside of the riparian zone. No rip rap is proposed. The project area extends approximately 450 feet west from Highway 1 to Cayucos Creek, under Cayucos Creek Road, in the community of Cayucos. The proposed project is within the Public Facilities, Recreation, and Residential Multi-Family land use categories, and within the Estero Planning Area. ED06-111 (300306)
